SFA | FACILITIES & CONSTRUCTION

DEMOLITION · CLEAN-OUTS · HAULING

Commercial demolition, clean-outs and hauling, on a fixed bid.

Experienced large and small demolition crew for owners, lenders and contractors, from a single suite to a whole building.

Interior and selective demolition

Strip-outs to white box: walls, ceilings, flooring and finishes removed, with structure and systems left intact.

Whole-building demolition

Houses, outbuildings and commercial buildings taken down to grade, with the site left ready for what comes next.

Clean-outs

Abandoned suites, foreclosed and REO properties, warehouses and estates, emptied and left broom-clean.

Waste removal and hauling

Roll-off containers, hauling and disposal, with metal, concrete and clean wood recycled where possible.

EVERY JOB

Before
A site walk and a written scope. Permits, utility disconnects and any required asbestos survey are in place before work starts.

During
The work area is secured, dust and noise are kept away from occupied space, and debris is cleared daily.

After
A broom-clean handover with before-and-after photos and a disposal ticket for every load.

IN WRITING, IN THE CONTRACT

- A fixed bid from a site walk, with the scope listed line by line
- Permits and utility disconnects handled by us
- Asbestos surveys and abatement by licensed partners, passed through at cost
- Disposal and recycling tickets for every load

WHO CALLS US

Owners and brokers preparing vacant space for leasing or sale.

Lenders and receivers taking back a property that has to be emptied and secured.

Contractors who need a demolition sub that shows up on schedule.

From demolition to move-in. When the space needs rebuilding, our fit-out crew picks up where demolition ends: one contract, one schedule.
